

Danstoker consents to the 10 UN general principles for companies recognizing their social responsibility, referred to as "Global Compact"

The ten principles in the areas of human rights, labour, the environment and anti-corruption enjoy universal consensus:

Human Rights

1: Businesses should support and respect the protection of internationally proclaimed human rights; and

2: make sure that they are not complicit in human rights abuses.

Labour

3: Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining;

4: the elimination of all forms of forced and compulsory labour;

5: the effective abolition of child labour; and

6: the elimination of discrimination in respect of employment and occupation.

Environment

7: Businesses should support a precautionary approach to environmental challenges;

8: undertake initiatives to promote greater environmental responsibility; and

9: encourage the development and diffusion of environmentally friendly technologies.

Anti-Corruption

10: Businesses should work against corruption in all its forms, including extortion and bribery.
